

Compatible
WELDCRAFT®

The impressive range of compatible Weldcraft® torch packages available from Starparts comprises of the:
WP9, WP9F, WP9FV, WP9V, WP9P,
WP17, WP17F, WP17FV, WP17V,
WP18, WP18F, WP18V, WP18P,
WP20, WP20F, WP20P, WP25, WP24,
WP24W, WP26, WP26F, WP26FV, WP26V,
with the new additions of the WP12 and WP27.

With Tig cables produced in our in-house manufacturing facility, any length of torch is available outside the standard 4 and 8 metre lengths.

With the introduction of the "EPR" style torch, with its Ergonomic Tig handle design and flexible overbraid rubber cable, Tig torch

selection from a single source supply has never been greater. All torch packages are available with either pvc or overbraid cable and a choice of standard tubular or "EPR" handle. Air cooled packages are available with either mono or 2 piece cable system and all packages are available with a choice of switch and either neoprene sheathing or zipper cable cover. All types of termination fittings are stocked and simply need to be specified at the time of ordering ie: 3/8"BSP, 1/4"BSP, 3/8"UNF, 5/8"UNF, 7/8"UNF, M10, M12 & M14.

First time available the new SP300A, a 300 Amp Air Cooled Tig package offering Tungsten sizes from 1.6mm to 4.0mm. This innovative new product was developed for the Hire Industry and Site applications to eliminate the need for water cooled Tig packages.
